BrainWeighve Beta App installation on iOS devices

Welcome to the BrainWeighve beta program! We're excited to have you on board. This guide will provide you with a step-by-step approach to installing the BrainWeighve beta app on your iPhone devices. Let's get started:

Step 1: Open Safari on your iPhone and visit <u>https://www.brainweighve.com</u> This is the official website for BrainWeighve. Once you're on the website, tap on the "Download on the App Store" button.

Step 2: On the Beta program notice pop-up, tap on the "Install Beta" button. This will navigate to the TestFlight installation page.

Step 3: There are two steps to install the BrainWeighve Beta app. Firstly, we need to install TestFlight app. If you have a TestFlight app already installed, then jump to **Step 9.** Else, tap on the "View in App Store" button. This will take you to the Apple App Store, where you can learn more about the TestFlight app's features and reviews.

Step 4: Tap on the "Download" (cloud icon with down arrow mark) button. The TestFlight app will start downloading onto your device. Please ensure you have a stable internet connection for a smooth download process.

Step 5: Once the download is complete, tap on the "Open" button. This will launch the TestFlight app on your iPhone.

Step 8: Now, press the home button on your device to exit the app. This will take you back to the home screen of your iPhone.

Step 9: Return to the Safari browser by tapping on its icon on the iPhone Home screen. You will find the "Start Testing" button under the Join the Beta section of this page.

When you use BrainWeighveApp, your crash logs, usage information and feedback will be sent to Apple and eHealth International Incorporation and may be linked to your email address. Apple or eHealth International Incorporation may contact you regarding this information. Review the TestFlight Terms of Service, as well as Apple's privacy policy and practices. Beta versions of apps may crash or result in data loss.
